EXPERIENCE

ACES Towing & Auto Repair; Leesburg, Florida — August, 2023 - Present

Office Worker

- Web Application development in Next.JS, React, Typescript, and Tailwind
- Automation and task management with Python
- Creating new solutions to improve efficiency with higher accuracy

Kleen-Tex; Kobe, Japan — Dec, 2022 - Mar, 2023

IT Infrastructure Engineer

- Managed DNS records, including TXT, A, CNAME, and MX records, to ensure proper domain name resolution.
- Created custom applications with HTML, CSS, Javascript, and Tailwind that automated key processes and optimized resource utilization, resulting in significant time and cost savings.

- Deployed and maintained Azure web applications, ensuring high availability and scalability.
- Administered Active Directory and Azure AD, creating and managing user accounts, licenses, and devices.
- Utilized PostgreSQL to create, update, and delete entries, ensuring efficient database management.
- Configured and maintained Netgear switches, ensuring optimal network performance and stability.
- Managed Palo Alto Firewalls and Fortinet Portgate Switches, providing network security and access control.
- Maintained file servers and performed regular backups to ensure data integrity and availability.
- Configured wireless networks to provide seamless connectivity for users and devices.
- Performed switch and network configuration, monitoring, support, and repair to ensure reliable and efficient network operations.

ITCS-Group; Remote, Japan — Mar, 2022 - Dec, 2022

IT Trainer

- Provided IT consulting services to the IT department, trainers, and trainees, ensuring alignment with business needs and objectives.
- Managed a team of over 20 people, providing leadership, guidance, and support to ensure efficient and effective project delivery.
- Deployed and managed EC2 instances, security groups, and VPCs in AWS, ensuring optimal performance, security, and scalability.
- Configured and accessed Unix-based instances using SSH, providing remote access and troubleshooting support to users.
- Provided desktop management support and hybrid administration services, ensuring efficient and secure operation of IT systems.
- Administered Azure services, including managing users, groups, and applications in Azure Active Directory and creating and deploying virtual workspaces in Azure and AWS.
- Developed and delivered training BootCamps to skill-up consultants, ensuring the acquisition of the latest tools and techniques for efficient project delivery.
- Utilized PowerShell, Python, and Bash scripting to automate tasks and streamline IT operations, reducing manual effort and increasing efficiency.
- Conducted weekly meetings to discuss project progress, coordinate tasks, and plan new projects and timelines, ensuring alignment with business objectives.
- Automated tasks such as Unix user and group creation, reducing manual effort and increasing efficiency.

Seiki, Kyoto, Japan — Mar, 2018- Feb, 2022

Training and Support

- Conducted troubleshooting and repair on a wide range of electronic devices, diagnosing and resolving hardware and software issues to ensure optimal performance and functionality.
- Developed documentation and training guides, ensuring efficient and effective transfer of knowledge and skills among staff.

- Coordinated with staff in meetings to discuss future endeavors, new technologies, and business finances, ensuring alignment with organizational objectives and priorities.
- Trained and supported staff in company software, protocol, and procedures, ensuring compliance with organizational standards and requirements.

AEON, Kobe, Japan — Mar, 2017- Mar, 2018

Instructor

- Participated in daily meetings with colleagues, discussing business and financial matters to promote effective planning and decision-making.
- Demonstrated the ability to work effectively under pressure, meeting tight deadlines in a fast-paced environment to ensure optimal outcomes and results.

Office Depot, Florida, USA — 2012-2017

Desktop Support Specialist

- Provided technical training and support to new staff, utilizing strong communication and interpersonal skills to facilitate effective learning and growth.
- Delivered technical support and maintenance to client devices, troubleshooting issues and providing prompt and effective solutions to ensure optimal performance and reliability.
- Built and maintained positive and productive relationships with clients, utilizing strong communication and customer service skills to understand their needs and expectations and exceed their satisfaction.

Education and Certifications

- **Harvard University**, Computer Science Course, 09/2022 - SQL Database Course, 10/2023
- **Azure Solutions Architect Professional**, 07/2022
- **AWS Solutions Architect Associate**, 05/2021
- **University of Florida**, 4 year BA in East Asian Studies
- **Kansai Gaidai**, One year study abroad - Osaka, Japan, 05/2016
